Dear Jim and Dana,

What a wonderful experience this has been having you manage the construction on our house. After all the horror stories we had heard about contractors and home improvement projects, we entered into this expecting the worse. But, instead, not only have we been absolutely thrilled with the quality of work, we feel like we've gained a friend. Having someone "live" at your house for 4 months can be stressful, but it was always a pleasure having Jimmy around. Emilie is still having withdrawal attacks from not seeing him everyday. We love the addition and the attention to detail! And thank you so much for speeding up the completion date when Gillian showed up early. I know this took a lot of juggling and re-scheduling of group and I really appreciate it. The dish garden you sent when Gillian was born was

beautiful! What a warm gesture! Jimmy should get a gold star for having to put up with me for so long while pregnant - I'm sure it drove him crazy!
