Dear Jimmy,

After having the time to enjoy our new addition during this past summer I wanted you to know how much Kathy, the boys and I are enjoying it. The results are beautiful and your team of professionals are responsible for the outcome.

We weren't sure how it would all fit together with our existing house, but the addition has fit in so well with our home, it looks like it has been there since we built our house 8 years ago. The craftsmanship is outstanding and your keen eye to detail has made our addition the talk of the neighborhood.

We value our friendship and appreciate the efforts and quality of work that went into this addition and thank you for all your time and talent in the construction of our home. We are looking forward in having you take on our next project in the near future.

Best personal regards,

Steven and Kathy Reto
